**RE: City of Green Local Historic Landmark - Merestead Farms**

Dear John & Lee,

On July 24, 2014 the City of Green Historic Preservation Commission held a public hearing regarding the application for the historic designation of the Abraham Foust Homestead located within Merestead Farms. The Commission voted unanimously to grant this property the designation of City of Green Local Historic Landmark.

The City of Green would like to commend you both for this significant accomplishment. The contributions of the Beese family and Merestead Farms to our rich heritage are highly valued and we are all beneficiaries of the your efforts to preserve not only the historical character and story of your home but to continue the proud agricultural tradition of the land that so significantly contributes to both our history and future.

Best wishes and congratulations to you both.

Sincerely,

Wayne L. Wiethe, AICP
