

Changeover Day Is Monday, October 31

What is changeover day?

It's when the temporary pavement on the west side of 241 will be open for traffic. At the same time, the northbound lanes of 241 from Thorn Drive to Franks Parkway will be shifted to the west.

What should I do?

Even with sheriff's deputies directing traffic that day, you may want to avoid driving through 241 South with alternate routes such as:

- Travel north and south by using **South Arlington** to the west or **Mayfair** to the east.
- Take **Raber, Graybill** or **Wise** to get to **Mayfair**.
- Take **619** or **Steese** (connecting to **Greensburg**) to get to **South Arlington**.
- From the north, you can take **Sandy Knoll Drive** to **Corporate Woods Parkway** to **Tab's Drive** to get to **Boettler**.

What does this mean?

All north- and southbound traffic will use the westside lanes and the temporary pavement. Access to all businesses will remain open. Massillon Road will be open in both directions.
