

Business Matters

You're in Good Company

- Green is home to more than 1,200 businesses.
- Green has more than 730 acres of developable commercial and industrial land.
- Green partners with both local and regional agencies to provide our businesses with access to programs and services to help their businesses grow.

Thank You

for being a Green business. We value every business and appreciate the contributions you and businesses like yours make to our community. We hope to be a resource, whenever possible, to help strengthen and grow your business.

Here are a few ways we may be able to help your business succeed and, maybe more importantly, stay connected.

Visit our Website

The City's website contains a wealth of information about City services and resources at www.cityofgreen.org. Let our website be your first stop. Some of the information you will find includes:

- Demographics
- Business assistance programs
- Business financing programs
- Mapping
- Road construction updates
- Permits, applications and fees
- Property database

Property Database

If you are running out of space at your current location, consider looking at the City's available property website at www.cityofgreen.org/real-estate or contact Jessica Hyser for additional assistance. We often know about sites that are not currently represented by commercial brokers and are not located through traditional search methods.

E-mail Newsletter

Make sure you are signed-up to receive the City of Green's eNewsletters, especially Business Matters, a bi-monthly electronic newsletter geared towards our business community. This newsletter shares information about programs, events and services that may impact your business' bottom line, as well as the latest information about what is happening in Green. You can sign-up by visiting our website www.cityofgreen.org or contact Jessica Hyser.

Facebook

"Like" the City of Green on Facebook and stay up-to-date on what is happening in the City of Green. We use our Facebook page to update residents and businesses about current events; weather and/or road conditions; and promote or recognize businesses for their great accomplishments. Find us at: <http://www.facebook.com/cityofgreenohio>

Charting the Course

Attend one or all of the Mayor's *Charting the Course* programs. This breakfast program is an excellent way to network with fellow Green business owners as well as learn about topics or issues affecting local businesses like yours. Charting the Course also provides a venue for business owners to hear about what is going on in our community straight from the Mayor. Look for announcements via e-mail and the City's website.

Join the Green Chamber of Commerce

Contact the Green Chamber of Commerce at 330.896.3023 or visit their website at www.greencoc.org for more information about their networking and educational opportunities or cost savings programs.

Make the City of Green Planning Department the first place to call when you need assistance. The City's staff is available to help provide answers to issues relating to City Services, and can also make referrals to local business programs.
