

Southgate Park Observation Project

This project is to help the City of Green Parks & Recreation Division identify the species of plants and animals that thrive within Southgate Park. Please let us know what you find within Southgate by tagging any interesting observations that you may find. Thank you for your participation!

How to participate:

Create an account:

1. Go to www.inaturalist.org
2. Click on the "SIGN UP" button
3. Provide a username, email address, password, and time zone. Then click "Sign Up"

Join Our Project:

1. Login to your account on www.inaturalist.org
2. Click on the "PROJECTS" tab at the top of the page
3. Type in "Southgate Park Observations" in the Project Search bar and click "Search"
4. Choose this icon:

5. Click on "Join this project" in the top right corner of the page
6. Agree to the terms and conditions and choose "Yes I Want to Join this Project"

Adding Observations:

1. Login to your account on www.inaturalist.org
2. Click on the Project you would like to add an observation to
3. Click on "Add Observation"
4. Type in the name of the species and press enter
5. Select the appropriate option for species
6. Click on the "ID Please" button if you need help with your observation
7. Add a description, location, and photo to the observation
8. Click on Save
